

TRISTAN JESSUP

Independent AI Alignment Researcher · Founder, Mindlink Research Group LLC · Advanced Repair Agent, Geek Squad

Versailles, KY · [Phone] · jessupjdj@outlook.com · [linkedin.com/in/john-jessup25](https://www.linkedin.com/in/john-jessup25)

SUMMARY

Independent AI alignment researcher and senior systems technologist. Founder of Mindlink Research Group LLC, where I run multi-agent empirical experiments on emergent behavior and design governance frameworks that treat alignment as a group-level property. Five-plus years diagnosing and repairing complex Windows and macOS systems at Geek Squad, currently the bench's senior technical resource. CompTIA A+/Network+/Security+ certified and completing a B.S. in IT with an AI concentration. Seeking to bring an evidence-first, systems-resilience perspective to applied AI safety and alignment teams.

Guiding principle: inspired by myth, accountable to evidence.

TECHNICAL SKILLS

AI / ML & Research: Multi-agent systems · LLM evaluation & behavioral analysis · AI alignment & safety · governance-framework design · statistical analysis (correlation & significance testing)

Tools & Platforms: Anthropic Claude / Claude Code · Google Vertex AI · Google Cloud Platform · Microsoft 365 / Copilot Studio · Obsidian · Git

Systems & Hardware: Windows & macOS diagnostics · Linux (Kubuntu) · data recovery · NVMe/SSD cloning & migration · BIOS/UEFI · endpoint security & malware remediation

CERTIFICATIONS

CompTIA Security+ · CompTIA Network+ · CompTIA A+

INDEPENDENT RESEARCH & PROJECTS

Founder & Independent Researcher — Mindlink Research Group LLC 2025 – Present
Kentucky (independent AI alignment research)

- **AGI-SAC:** Designed and ran a multi-agent empirical experiment testing whether persistent memory alone drives behavioral divergence between identical-base-model LLM agents (pilot result: Spearman $\rho = 0.511$, $p = 0.0007$).
- **Concord of Coexistence:** Authored an alignment governance framework treating alignment as a group-level property, with procedural legitimacy, memory governance, and dissent preservation as first-class design variables.
- **Publication & impact:** Authored an Alignment Forum analysis on emergent divergence as a group-alignment property; frameworks referenced in independent AI-safety white papers.

PROFESSIONAL EXPERIENCE

Advanced Repair Agent — Best Buy, Geek Squad Apr 2021 – Present
Lexington, KY

- Serve as the team's senior technical resource — supervising and mentoring associates and owning the most complex bench escalations despite holding no formal title.
- Diagnose and repair hardware and software faults across Windows and macOS, including data recovery, NVMe/SSD cloning and drive migration, and full malware/PUP remediation using certified tooling.
- Resolve ambiguous, undocumented failures — firmware, BIOS/UEFI, and OS-level instability — that block standard repair workflows.
- Drive process integrity on the bench, including intake documentation standards and removable-media SOP compliance.
- Deliver on-site and remote support and advise clients on hardware and software upgrade paths.

Customer Experience Specialist — Tesla

Sep 2017 – Nov 2018

Sarasota, FL

- Averaged ~20 new-vehicle sales per month and led Tesla's direct-delivery program: sales contracts, financing documentation, home delivery, new-owner orientation, and DMV submission.
- Managed all retail sales-floor leads and personalized follow-up in Salesforce — the foundation of deep, hands-on EV domain knowledge.

City Carrier Assistant — United States Postal Service

Dec 2020 – Mar 2021

Lexington, KY

- Sorted and delivered mail on foot and by vehicle across variable weather and route conditions, ensuring timely, accurate service.

EARLIER EXPERIENCE

Customer Service Specialist, Top Drawer Furniture LLC (Remote)

Dec 2018 – Jul 2020

Warehouse Associate, Falfas Cabinet & Stone, LLC — Sarasota, FL

Jul 2016 – Aug 2017

Repair & Remarketing Strategist, 1st Premier International Properties, LLC

Jun 2014 – Jul 2016

Trainer, Expert Global Solutions (now Alorica) — Sarasota, FL

Sep 2010 – May 2014

EDUCATION

B.S., Information Technology (Artificial Intelligence concentration)

In Progress

*Strayer University***General Studies coursework**

2008 – 2010

University of Kentucky
